Residential On-Coil UV-C System

UVDUO

Powerful. Efficient. Easy-to-Install.

Keep your HVAC system running at peak performance.

The CGUV-GRID-2-40WH-R is a solution designed to prevent coil fouling, drain clogs, and energy waste for cleaner air and lower costs.

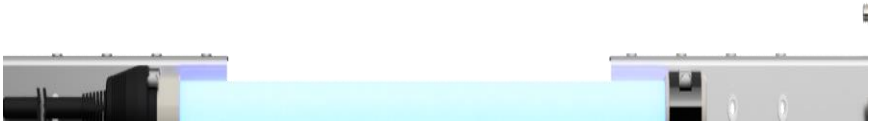

Key Features

Dual 40W UV-C lamps
- Maximum irradiation at the coil surface.

FEP-coated lamps
- Shatter-resistant, safe, and compliant.

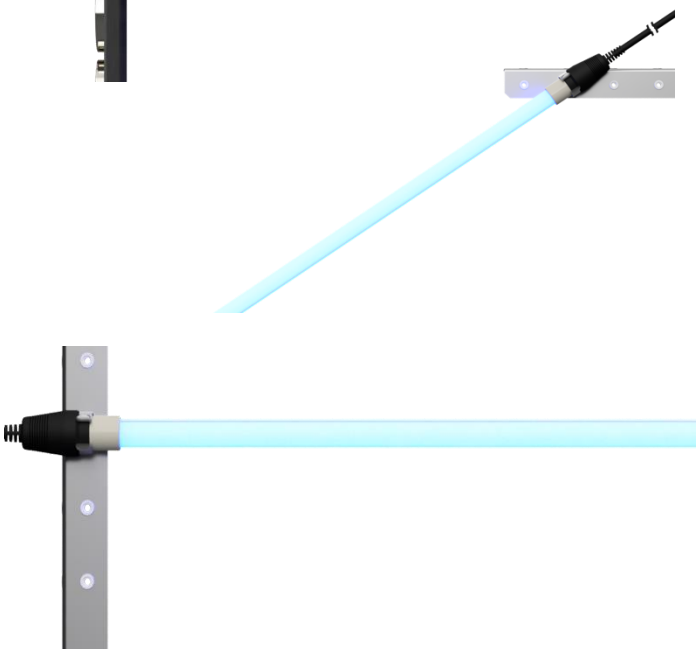

Durable & compact
- Rugged, lightweight components built for homes.

Flexible install options
- Internal or external mounting with magnetic brackets.

Benefits for Homeowners

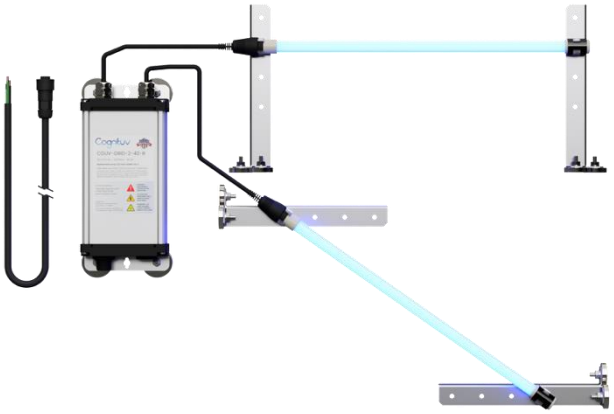

- ✓ **Energy Savings** – Restores coil efficiency, extending HVAC life.
- ✓ **Cleaner Air** – Stops biofilm, allergens, and odors for healthier living.
- ✓ **Clog-Free Drains** – Prevents costly water damage from blocked pans.
- ✓ **Consistent Comfort** – Maintains airflow, humidity control, and performance.

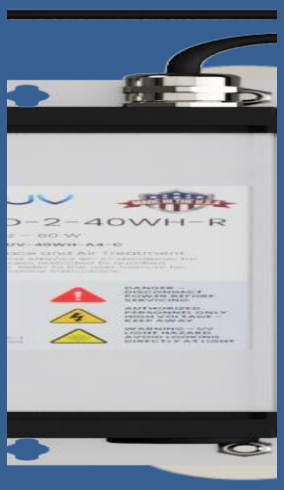

Why Choose CGUV-GRID-2-40WH-R?

Protects your investment – Stops microbial buildup that damages coils.
Cuts energy costs – Maintains coil efficiency, reducing energy use up to 20%.
Improves air quality – Eliminates mold, bacteria, and viruses at the source.
Simple install – Universal mounting, lightweight, and wet-rated power supply.

CGUV-GRID-2-40WH-R - *Smart UV-C protection for your home comfort system.*
